The NSHE agrees that it will not discriminate against any member of the bargaining unit with respect to hours, wages, or any other terms and conditions of employment as described in the Board of Regents Handbook and in this Contract by reason of membership in the TMCC-NFA, participation in any lawful activities of the TMCC-NFA, or any grievance, complaint or proceeding under this agreement.
2. The TMCC-NFA agrees that it will represent all members of the bargaining unit fairly and without reference to membership in TMCC-NFA. TMCC-NFA asserts that membership in the TMCC-NFA is not compulsory and that members of the bargaining unit have the right to join or not join the TMCC-NFA as each may decide. Neither TMCC-NFA nor NSHE shall coerce or discriminate against any faculty member in the exercise of such right.

Article 4

Academic Year and Instructional Days

4.1 Academic Year

The academic year shall be defined by the academic calendar as approved by the President following the timely recommendation of the Faculty Senate and the Vice President for Academic Affairs. Calendars are proposed in two-year blocks at the beginning of the Spring semester. Therefore, a timely recommendation shall be made by the end of February of each year. In the absence of a timely recommendation, the President may determine the academic year.

4.2 Non-Instructional Days

Non-instructional days shall be used for carrying out other professional responsibilities (individual and group work) such as course and curriculum development or revision, student advising, laboratory maintenance, routine preventative shop maintenance, conducting educational research review and/or preparation of audio/visual computer assisted instructional aids, visitation of proposed clinical sites, professional development, etc. For counselors and librarians, non- instructional days may be used for counselor and librarian duties as well. Article 4

Academic Year and Instructional Days

administration and the faculty member involved, seeking mutual agreement. If no agreement is reached following this discussion and exploration of alternatives, if any, suggested by the participants a final decision may be implemented at the discretion of administration. If administration chooses to exercise this option after failure to reach agreement through discussion, a minimum of six (6) months advance notice shall be given before any changes in contract takes effect. Nevertheless, it is recognized that it is in the best interests of TMCC and the faculty if such changes are accomplished by mutual agreement.

4.4 Changes in Campus Assignments

As part of their professionalism and devotion to their students, faculty members recognize that they should teach where, and at locations at which, their students are available for instruction. With regard to changing assignments from day to night, night to day, or from one site to another, the Department Chair/Program Coordinator shall take into consideration the preferences of the affected faculty member(s) as well as the needs of the Truckee Meadows Community College students. Article 5 Salary

5.1 Definitions

As used in this article:

1. The academic year shall be defined by the academic calendar as approved by the President following the timely recommendation of the Faculty Senate and the Vice President for Academic Affairs. The academic year shall include a period prior to the beginning of instruction and a period following the conclusion of examinations in the Fall and Spring semesters as specified in the academic calendar. The academic year will consist of 172 days.
2. Salary will be governed by the basic concepts of the Community College Faculty Salary Plan and the Community College Academic Salary Schedule as established in the Board of Regents Handbook.

5.2 Placement

1. The Community College Academic Salary Schedule shall govern the placement of a new faculty member on the salary schedule. As specified in the Community College Academic Salary Schedule, "Initial placement for new faculty will be made according to the degrees obtained, related work and teaching experience." Original placement made upon contract start date can be adjusted following appropriate verification of academic credentials within thirty (30) calendar days from the effective date of employment to establish teaching and related work experience. An equitable system for initial placement shall be developed by the administration and published in the Human Resources Procedures Manual.

Article 5 Salary

2. Consideration will be given to authorizing a higher salary in order to attract an applicant with qualifications in areas pre-defined as difficult to recruit. Human Resources in consultation with Faculty Senate shall submit recommendations to the President for designating difficult to recruit positions. The President shall review the recommendations, determine the positions that are to be designated difficult to recruit, and forward the same to the Chancellor. Designating difficult to recruit positions will be reviewed on a yearly basis by the NSHE and approved by the Chancellor. The President will make the final determination on initial salary placement for positions determined to be difficult to recruit. (BOR Title 4)
3. At the time of hiring, faculty shall be assigned to "A", "B" or "B+" contracts at the discretion of the administration.

Workdays for "B" contract faculty in areas such as Counseling or Library that require prescribed staffing periods, shall be selected by the faculty member in consultation with the Director. In the absence of consensus, assignments shall be made by the administration.

5.3 Additional Compensation

Compensation for any work in addition to the "B" contract shall be determined in one of the following ways:

Faculty member's base salary = daily rate

Article 5 Salary

172 days

The daily rate multiplied by the number of days beyond the “B” contract shall equal the additional compensation.

2. If the additional work is based upon completion of a project or assignment and not on a fixed number of days, compensation shall be at a negotiated rate between the faculty member and the Dean and approved by the Vice President.

5.4 Additional Assignments and Special Projects INTENTIONALLY OMITTED

5.5 Movement on the Salary Schedule

In these situations, the NSHE will also examine the feasibility of either adopting an alternative plan or supplementing the State plan with other available plans.

Article 7 Additions to Workforce

7.1 Selection of Faculty

1. **Type of Academic Faculty:** A tenured academic faculty position that becomes available will be replaced with a tenure-track position. When there is insufficient time to fill the position with a search as defined in this Article, a temporary (one-year) hire may be made upon consultation with NFA and with the approval of the Dean, Vice President for Academic Affairs, and the President. Temporary (one-year) hires may be rehired beyond one year only if necessary based on a budgetary or programmatic reason that precludes conducting a tenure-track hire. Any extension of the one-year hire must be justified in writing annually and approved by the Vice President of Academic Affairs and the President in consultation with the TMCC-NFA. Temporary (multi-year) academic positions may be hired on grant or contract related requirements and commitments. These positions shall be approved within the college's budgetary process.
2. Except under unusual circumstances, a new tenure-track or temporary (one-year) faculty position shall be advertised for at least thirty (30) calendar days prior to the date the position is closed. If the search for a temporary (one-year) faculty position is not known until after July 1 for Fall Semester or November 15 for Spring Semester, a ten-day period of advertisement may occur if approved by the Dean. The President may waive these requirements, but only after consultation with the TMCC-NFA with the reasons for the waiver.

Article 7

Additions to Workforce

3. Except under unusual circumstances, a search committee will be utilized as described in Article 7.2 to hire tenure or tenure-track faculty. The President may waive this requirement, but only after notice to the TMCC-NFA with the reasons for the waiver.

7.2 Faculty Search Committee, Tenure Track Positions

1. A faculty search committee for tenure-track, faculty positions shall be chaired by the Department Chair, Director or Program Coordinator, or their designee, as approved by the Dean.
2. Four (4) other faculty members, preferably tenured, (three (3) from the division – two (2) of whom are from the same discipline as the vacant position if possible, and the fourth from outside the division), selected by a Search Committee chair in consultation with Human Resources if needed.
3. Because of the unique, departmental, and student perspective that classified employees can bring to searches, it is desirable that (1) one classified employee participate in each search, as a non-voting member. This person will be invited to attend all candidate interviews, teaching demonstrations, and informal meetings as time permits to form recommendations that will be shared with the committee Chair and considered by the committee.
4. A representative from Human Resources and/or Equity and Diversity will provide training in EEO compliance as well as procedures for conducting a search committee meeting and will be available as needed.
5. At the discretion of the search committee, a community representative may also be included as a non-voting member.

Article 7

Additions to Workforce

6. Based on a review of qualifications, the search committee will forward a recommendation of up to three (3) candidates with their strengths and weaknesses to the Dean. At any point, a recommendation may include no candidate being put forward for the position and the subsequent reopening of the existing pool of applicants or vacating the entire pool. The Dean will then make a recommendation to the Vice President. If the Vice President does not concur with this recommendation, the decision will be explained to the Dean and the committee. If the President appoints the candidate recommended by the Vice President, the process is complete. If the President does not appoint the recommended candidate, the President will explain this decision to the Vice President, who will explain it to the committee. The committee will then, at its discretion, either recommend other candidates from the existing pool or choose to reopen the search.
7. Whenever possible the search committee will assist with the development of the job announcement.

7.3 Faculty Search Committee, Temporary (One-year) positions

1. The faculty search committee will include a minimum of three faculty members from the department/division, two from the same discipline as the vacant position, if possible, and one of whom serves as Chair, and may include at least one outside member if relevant, selected by the Search Committee Chair in consultation with Human Resources.
2. Given the temporary status of this position, the search process will use a reasonable and economical means to seek qualified candidates, including advertising and travel stipend for candidates except in special circumstances and where additional funds are available.

Article 7

Additions to Workforce

3. The faculty search committee will follow existing processes in place for tenure-track hires as outlined in the Hiring/Recruitment Manual with the exceptions discussed above regarding the advertisement, the travel budget limit, and the committee composition.
4. A representative from Human Resources and/or Equity and Diversity will provide training in EEO compliance and procedures for conducting a search committee meeting and will be available as needed.

7.4 Tenure Probationary Committee

Once seated a Tenure Probationary Committee member may not be removed from the Committee without justifiable cause and then only with the approval of the Vice President for Academic Affairs in consultation with the NFA.

The faculty support committee shall meet at least twice with the faculty member during the academic year following the first unsatisfactory evaluation for the purpose of reviewing progress and offering assistance in meeting the objectives.

3. Report of Faculty Support Committee: Prior to April 1 in the year following the first unsatisfactory evaluation, the faculty support committee shall submit a report to the appropriate Dean, detailing the objectives that were established and the committee's evaluation of the faculty member's performance in meeting the objectives. A copy of the faculty support committee's report shall be made available to the faculty member under review. - 12.14 The Dean will conduct a classroom observation of each full-time tenured faculty member at least once every three (3) years. This will be done on a rotating basis so that one third of all the full-time tenured faculty members in the department will be observed each year.
- 12.15 The Department Chair/Director/Program Coordinator will conduct a classroom observation and evaluation of all non-tenured, temporary and range-zero faculty once a year.
- 12.16 WebCollege courses shall be evaluated pursuant to guidelines established by WebCollege.

A copy of said determination shall be given to the faculty member in a timely manner.

Article 13

The statement shall be attached to the faculty member's written performance evaluation and become a permanent part thereof.

For academic faculty the Vice President of Academic Affairs shall be the reviewer. For administrative faculty the appropriate senior staff member as determined by the president shall be the reviewer. The decision from the reviewer shall be final and cannot be further appealed and shall become a part of the evaluation documentation.

Miscellaneous

- 16.10 The TMCC-NFA may purchase up to one 3-credit course release per semester for the TMCC-NFA President to perform by paying TMCC the amount of compensation paid to a TMCC part time instructor in effect at that time.
- 16.11 At the request of a faculty member any credit hour release or reassigned time for department chair duties, which is described in Article 8, program coordinator duties, which is described in Article 11, or in the Workload Policy, which is described in Appendix A, such credit hour release or reassigned time may be taken as a stipend which is equal to the current compensation per credit for part time instructors. No faculty member may be compensated and released for more than the equivalent of 21 credits per semester except in extraordinary circumstances as determined and approved by the Vice President of Academic Affairs.

Appendix A Faculty Workload Policy

Workload is the primary measure of how a faculty member fulfills his/her contract. It is measured in contact hours and applied uniformly throughout the College. The Board of Regents Code defines a minimum load for a faculty member at a community college as thirty (30) credits per academic year. Every attempt should be made to ensure that student needs and faculty welfare are considered in the assignment of faculty workload. The following rules shall govern workload at TMCC:

1. Contact hours include formal class/lab meetings, whether for credit or not for credit, but part of a for credit program.
2. A standard of fifteen (15) contact hours per week per semester should be used to measure contractual workload for full-time instructional faculty in all applicable divisions. Except in extraordinary circumstances, tenured faculty may refuse a teaching assignment beginning after 5:00 p.m. which is directly followed by an early morning assignment (before 9:00 a.m.) or for more than two consecutive courses in a row.
3. A six-credit (6) per semester overload teaching limit, paid at the part-time rate, will be upheld consistently throughout all instructional divisions except in the case of an emergency (sudden resignation, unexpected absence, etc.) when a faculty member may be granted an exception with the recommendation of the Department Chair and approval of the Dean and Vice President.
4. Self-paced instruction will not count toward faculty contractual loads or overload. A stipend for self-paced instruction shall be paid for in-class self-paced programs.

The stipend will be applied when the number of students reaches fourteen (14).

Appendix A

Faculty Workload Policy

For numbers lower than fourteen (14), the payment will be prorated.

5. Independent study courses will not count toward faculty contractual loads or overload. The maximum number of independent study students that a single faculty member may oversee shall not exceed ten (10) in a single semester. All independent studies should be paid on a student credit hour basis (the base per credit fee for in-state students times the number of credits and times the number of students).
6. Internship instruction will not count toward faculty contractual loads. All internships should be paid on a student credit hour basis (the base per credit fee for in-state students times the number of credits and times the number of students).
7. Class size is determined by the department with the approval of the Department Chair, Dean and Vice President. Class size reflects the responsibilities other than direct instruction, the pedagogical methods employed, the need for individualized attention, etc. The maximum class size in any discipline is fifty (50). No overload will be paid for classes wherein the enrollment exceeds the maximum class size.
8. Faculty members who co-teach a class will be compensated on a prorated basis not to exceed the number of total contact hours that a single faculty member would be credited for if he/she taught the course (for example two faculty members who teach a three (3) credit (3 contact hours) class will each get 1.5 contact hours or some other combination leading to a total of 3 contact hours). Faculty are still obligated to meet the minimally established contact hours per number 2 above.
9. Faculty members who teach noncredit or continuing education classes that are not a part of their regular workload will be paid hourly. The payment will reflect agreements between the hiring supervisor and the faculty member. Care should be

Appendix A

Faculty Workload Policy

taken to ensure that faculty are not paid for teaching noncredit or continuing education classes during their normal work schedule that would lead to double payment.

10. Faculty members who teach a fraction of a credit course will be paid an hourly rate calculated by dividing the part-time per credit rate by fifteen (15), unless it is a part of their regular workload. The total paid or assigned for any one (1) course shall not exceed the regular per credit payment.
11. Counseling faculty work thirty-five (35) hours/week with the number of scheduled days determined by the approved academic calendar. Counselors' schedules are agreed upon by the Dean and Vice President for Student Services.

Distance Education

The college recognizes the growing importance of distance education. Many faculty members have invested significant amounts of time to develop courses and programs utilizing this new delivery system. If there are courses that the institution requires, the college will offer faculty a stipend for development through the negotiated process for special assignment agreed upon in the NFA contract. The College will work with the Teaching Technologies Office to develop a summer institute for faculty interested in learning the platform, pedagogical approaches to teaching via distance, etc. A stipend will be paid to faculty for attendance in the summer institute. A system will be developed to determine which courses should be developed. The College will work toward the establishment of a resource center to assist faculty with preparation of course material and high quality media components. Distance education and WEB fast track will be treated similarly to other instructional assignments.

The methods of presentation and course materials are the responsibility of the faculty member assigned to develop and/or teach the course, and are subject to the same oversight by the

Appendix A

Faculty Workload Policy

faculty member's colleagues within the academic discipline as in any course in a traditional classroom setting.
